PROFILE

Software Engineering graduate from Universiti Malaysia Sabah with hands-on industry experience as a Programmer and Database Administrator at ST Datablu (intern, then apprentice, from March 2026). Delivered client web, mobile, and data projects for Sabah Tourism Board, FAMA, and the Department of Fisheries Brunei, covering system design, development, UAT, documentation, and user training. Motivated to grow as a Software Engineer, Web Developer, or Database Administrator, and to create a positive impact.

EDUCATION

Universiti Malaysia Sabah (Oct 2022 - Present)

- Bachelor of Computer Science with Honours (Software Engineering) - Graduating in Nov 2026
- CGPA 3.57 for 8 semesters
- Deans' List for 6 semesters

Labuan Matriculation College (2021 - 2022)

- Module III in Science Major (Computer Science), CGPA 3.46, MUET Band 4.5

SM St John, Tuaran (2016 - 2020)

- Sijil Pelajaran Malaysia (SPM) Science Stream, 5A 2B

WORK EXPERIENCE

ST Datablu: Programmer & Database Administrator (Apprentice) | Aug 2026 - Present

- Developed and maintained client web and mobile applications, managed databases, and delivered post-launch support.

ST Datablu: Programmer & Database Administrator (Intern) | Mar 2026 - Aug 2026

- Contributed to the planning, database design, development, and testing of client web and mobile applications.

SICC: Part-Time Banquet Service (2024 - Jun 2025)

- Received training in event preparation, customer service, and time management, contributing to team flexibility and event success.

KEY ACCOMPLISHMENT

- Awarded best trainer overall from UMS during the 21st KOR SUKSIS Inspector Appointment and Graduation Parade Ceremony 2025 at Universiti Teknikal Malaysia Melaka
- Led and drove registration units for the 10th Borneo Fiqh Convention, achieving 400 participants from UMS students, other institutions, and the public
- Developed eKAFA PIUMS, a School Management System, as a Final Year Project to streamline and digitize management tasks

EXTRA CURRICULAR ACTIVITIES

LEADERSHIP ROLES:

- External Relations Exco Secretariat for Persatuan Mahasiswa Fakulti Komputeran dan Informatik (PMFKI)
- Youth Development Exco Member for Kelab Rakan Masjid UMS (KRM)
- Platoon Leader for Skuad 18 KOR SUKSIS UMS
- Team Leader of sponsorship unit for FKI Pet Therapy Program

VOLUNTEERING & INTEREST:

- Volunteering as a crew for Borneo International Marathon 2025 & participated in 6 running events
- Participant of BeDigital Bootcamp (Miniseries) by Petronas
- Ran a jersey reselling business for UMS students (Mar 2022 - Oct 2025)

PROJECT EXPERIENCE

FAMA Agri Market Insight (AMI) (ST Datablu) : Jul 2026 - Present

- Created system flowcharts and technical documentation, after learning the system at the company's Brunei branch office with the project manager.
- Conducted user workshops in Kelantan, Sabah, Perak, and Pulau Pinang, prepared UAT forms, attended the UAT session at FAMA's office in Kuala Lumpur, and compiled user feedback.

Training & Speaking Engagements (ST Datablu) : Mar 2026 - Sep 2026

- Co-facilitated an 8-module FAMA SQL Analytics Training workshop for 12 participants and wrote the training report.
- Give talk at the Digital Workplace Transformation Masterclass (Rapid Axel Sdn Bhd) on AI, prompting, cybersecurity and data digital safety.

Fisherman System Project (ST Datablu) : Mar 2026 - Present

- Wrote the User Requirements Specification (URS), ERD, and UI redesign for the Department of Fisheries Brunei, and attended project progress updates in Brunei.
- Designed mockup UI pages for several modules and developed features for both the user and admin sides of the system.

Rural Tourism Project (ST Datablu) : Mar 2026 - Present

- Developed a PWA for Sabah Tourism Board (STB), from module, database, and system design through to testing, and published the Android app to the Google Play Store.
- Documented the system with a user manual and technical documentation, ran UAT and onboarding sessions with STB operators around few district in Sabah, and now provide support and bug fixes.

Client Support Portal (ST Datablu) : Mar 2026 - Jul 2026

- Developed a web platform with a teammate to replace manual WhatsApp handling of client support requests, from technical analysis (reviewed with the senior developer) to delivery.
- Designed the database and UI for my modules, set up the development environment, and made the system accessible online before the domain was ready.

SKILLS

- **Analysis & Documentation:** Object-Oriented Programming (OOP), System Analysis & Design, SDLC, Requirements Specification (URS), Technical Documentation, User Manuals, Flowcharts, UAT
- **Programming & Frameworks:** Java, C++, Python, PHP, JavaScript, Kotlin, HTML, TypeScript, CSS/SCSS, Yii2 Framework, Ruby on Rails, Angular, Ionic, Capacitor, PWA, Vue, Quasar
- **Database & Data:** Database Design & Management, MySQL, PostgreSQL, SQL, DBeaver, ERD, Data Modelling, ETL Concepts
- **Backend & Tools:** Authentication & RBAC, Postman, Git, GitHub, GitHub Actions (CI/CD), Docker, Vercel, Figma, Android Studio, VS Code, Laragon
- **General Skills:** Training & Facilitation, Client Communication, Prompting, Agentic AI
- **Language:** Malay and English

CERTIFICATIONS

- Nexperts Academy Professional Agentic AI Engineering (Aug 2026)
- Cisco Networking Academy: Cybersecurity Essentials (Jan 2026)
- PETRONAS: BeDigital Bootcamp - Miniseries (Jun 2025)
- CCNAv7: Introduction to Networks (Sep 2023)
